In addition, fiber optic cable offers much longer transmission distances than traditional telephone line cord wiring.. Flexible Mounting and Powering OptionsThe FOI-2971 and FOI-4972 are part of the FOI line of products designed for ruggedized mil applications.. How to BuyWe support a variety of clients from multiple markets To make the buying process the cleanest and most efficient we provide a number of ways to purchase our products.. Optionally, up to 8 FOI units can be mounted on CMA chassis adapters and installed in an RMC-3101 or RMC-2101 rack mount chassis. [Cardworks Business Card Software Serial Number](#)

They are housed in the familiar FOI shielded can enclosure For standalone applications they can be powered by adding a PSQ-4909 AC supply or a PSQ-4920 DC power supply (not included).. FiberPlex recommends “R” units for high security applications because the units have added filtering and shielding for RFI suppression.. The units are powered redundantly by a common back plane connection Typical Applications Include:Standard POTS TelephonesSTU-III and STE PhonesFax MachinesModemsFOI-4972 has solid state relays on the outer black and yellow pair which can be used to activate external signaling devices when ringing is detectedTwo FOI-4972 can be connected back to back to create a private line automatic ringdown circuit.. Privacy of communications is also enhanced because the fiber optic cable does not radiate any emissions.. The FOI-4972 supports standard analog phones, STU-III (secure telephone unit) phones, STE (secure telephone equipment) phones, fax machines, and modems and supports Caller ID.. The units can be used in areas of high electrical noise or in and out of RF shielded enclosures. e828bfe731 [Ultramixer 2 Activation Key](#)
