(Others trace their roots to the Middle East or India) It is thought that, as early as 200 B.. var q = 'hisoty+of+firecrackers';Firecrackers Fountains 200 Gram Fountains 500 Gram.. Used outside the field of battle, the same technology allowed fireworks masters to put on the first aerial displays.

Find out more about the history of these celebratory explosives and how they evolved from bamboo thrown into a fire into the elaborate shows that will light up the skies on Independence Day.. At some point between 600 and 900 A D , Chinese alchemists—perhaps hoping to discover an elixir for immortality—mixed together saltpeter (potassium nitrate, then a common kitchen seasoning), charcoal, sulfur and other ingredients, unwittingly yielding an early form of gunpowder.. C , the Chinese had already stumbled upon a sort of natural firecracker: They would roast bamboo, which explodes with a bang when heated due to its hollow air pockets, in order to ward off evil spirits.. By the 10th century, they had developed crude bombs and begun attaching firecrackers to arrows that rained down on their adversaries during military engagements.. In the 13th century, gunpowder samples and formulas began trickling into Europe and Arabia, transmitted by diplomats, explorers and Franciscan missionaries.
